Get started with **free continuing education courses** now

Learn, improve, and grow with online continuing education courses sponsored by Capella.

Unlock your creativity: be an innovator

Learn techniques to become more creative and how to use that creativity to develop innovative approaches to patient care.

Do you reflect a positive image of nursing?

Get an overview of nursing, its public image, and how to promote nurses as key players in health care.

Work-life balance: learn to say no strategically

Learn to say no strategically in order to combat compassion fatigue, avoid personal health issues, and strengthen relationships with your staff.

Using emotional intelligence to create the work environment you desire

Learn how to use emotional intelligence in order to become a better role model, leader, and colleague in your workplace.

“

“I got into nursing because I wanted to help people. I also wanted stability and security and a sense of joy in what I do. I know nursing is right for me and the industry standard is leaning toward nurses who have a BSN.”
